German Quality Brand

The **SaneoVITAL** TENS EMS massage machine allows you to enjoy a beneficial time-out after a strenuous or stressful day.

Depending on the massage program, **SaneoVITAL** can help you to relieve painful muscular tension, train your facial muscles or those in the stomach, legs and bottom regions. It can help to reduce pain caused by swelling, for example in the legs, or simply to relax perfectly, all using pleasant electrical impulses.

TENS EMS electrical stimulation has already been successfully employed by the medical profession for many years, due to its effectiveness having been proved by a number of scientific studies. Enjoy a heavenly massage of the upper or lower back, of the arms or legs - every part of the body needs revival occasionally.

With the SaneoVITAL TENS EMS massager, you can indulge yourself once in a while. Treat yourself!

- 17 massage programs
- 8 self-adhesive, reusable electrodes (50 x 50 mm, 32 mm round, 4 pieces each)
- 2 separately adjustable channels for treating several body regions

- easy-to-use
