LASER
MODULES

3 x
PER WEEK

LESS THAN
90
SECONDS

DESIGN BY *pininfarina*

CLINICALLY
TESTED

FDA
CLEARED*

DOCTOR
RECOMMENDED

The new enhanced hands-free HairMax LaserBand cradles your scalp with nourishing laser light to energize and revitalize your hair follicles to REGROW YOUR HAIR.

In less than 90 SECONDS you can treat your entire scalp or easily target your problem areas from the front hair line to the back of your head in under 30 seconds per area.

The unique design incorporates a patented hair parting teeth mechanism, exclusive to HairMax devices, which parts your hair during treatment for maximum laser light delivery to your follicles to achieve optimal results. Experience new hair growth, increased density and healthier, fuller, more attractive hair with the NEW HairMax LaserBand.

*The HairMax LaserComb is indicated to treat Androgenetic Alopecia, and promote hair growth in males who have Norwood Hamilton Classifications of IIa to V and in females who have Ludwig (Savin) I-4, II-1, II-2, or frontal patterns of hair loss and who both have Fitzpatrick Skin Types I to IV.

THE SCIENCE OF HAIR GROWTH

The HairMax LaserBand delivers gentle, nourishing laser light to your hair follicles which stimulates cellular energy production to create a healthier environment for hair growth. This boost of laser light encourages more blood flow to the follicle, bringing in more oxygen and nutrients, activating antioxidant defenses, and speeding up the elimination of waste products such as DHT. HairMax laser light treatments help restore your hair's natural growth cycle resulting in new hair growth with increased density, fullness, and vibrancy.
