CLEARED\*

DOCTOR  
RECOMMENDED

The revolutionary new Prima 7 LaserComb redefines how you treat your hair loss and thinning hair. This state of the art laser phototherapy device targets hair follicles with nourishing light energy to treat hair loss and regrow your hair.

Now, you can experience new hair growth, increased density and healthier, fuller more attractive hair in just weeks.

\*The HairMax LaserComb is indicated to treat Androgenetic Alopecia, and promote hair growth in males who have Norwood Hamilton Classifications of IIa to V and in females who have Ludwig (Savin) I-4, II-1, II-2, or frontal patterns of hair loss and who both have Fitzpatrick Skin Types I to IV.

Introducing the NEW  
HAIRMAX® Prima 7 LaserComb

# THE SCIENCE OF HAIR GROWTH

The HairMax LaserComb delivers gentle, nourishing laser light to your hair follicles which stimulates cellular energy production to create a healthier environment for hair growth. This boost of laser light encourages more blood flow to the follicle, bringing in more oxygen and nutrients, activating antioxidant defenses, and speeding up the elimination of waste products such as DHT. HairMax laser light treatments help restore your hair's natural growth cycle resulting in new hair growth with increased density, fullness, and vibrancy.
