Barakat Quality Plus (L.L.C.)
Fresh Juices & Sanitized Cut Vegetables

Dear Michael,

Greetings from Barakat Quality Plus!

This is with reference to the trial of Airfree Wall Mounted Units at Barakat Quality Plus LLC.

Further to our requisition, the trial was conducted for a period of 7 weeks between 16th July and 24th August 2009 in the Juice Processing and Fruit Peeling areas.

This area involves processing of various juice flavors – pineapple, mango, apple, cocktail, etc. At this point, please note that from market survey it has been found that Airfree units work very well in dry stores.

However, this plan was made given that testing the units in highly contamination-prone processing areas would give us an insight of the practical usage of the product.

As decided between both BQP and Airfree teams, tests were conducted during the lunch break period to have better clarity on the fluctuation of results, as against conducting tests during peak hours, which could cause considerable vagaries in results.

Tests were conducted by our In-house laboratory using the Andersen Air Sampler, besides third-party tests by SGS arranged by Airfree.

The test results were found to be satisfactory given the nature of operations in the areas.

Results achieved from Week 1 to Week 7:

TPC Reduction: 93%

Y&M Reduction: 96%

However, given concerns over the unusually high moisture content in this area plus our own internal cleaning methods, our Management would like to make an alternate trial by installing the units in two of our main raw material stores (Potato/Onion Store and Fruit Store).

We are quite sure the units would give us very satisfactory results in these areas and would prove to be practical and efficient means of reducing airborne bacteria and yeast/mold.

BQP thanks the Airfree team for being very cooperative and understanding of our schedule and time-constraints. We request you to await our results for these areas, further to which we would be happy to furnish you with a complete testimonial of all results at Barakat Quality Plus.

Looking forward to a good business relationship with Airfree.

Regards,

Michael Wunsch
