

## **Relieve Tired and Sore Muscles in Seconds With Professional Massage Technology**

*-Brand-new health and wellbeing device, Intens8 Deep Tissue Percussion Massager, allows user to relax muscle pain in a quick, inexpensive, at home treatment-*

**29 August 2019** – Hull-based health and wellbeing company, Savantini Ltd, launch their brand-new professional massage therapy device, Intens8 Deep Tissue Percussion Massager, to provide relief and relaxation for all muscle groups.

The at-home device uses the latest in healthcare technology and massage therapy practice to allow the user to deliver targeted and effective pain relief with one handheld unit.

Intens8 Deep Tissue Percussion Massager (£199) uses percussion and vibration therapy to give long-lasting results. Percussion therapy replicates and enhances professional massage therapy. Its powerful tapping motion mimics the pressure applied by a masseuse's fingers, thumbs or palms, but the vibrations and pulses penetrate deep into the soft tissue, promoting pain relief, relaxation and tissue repair.

The Intens8 Deep Tissue Percussion Massager can be used to:

- Ease soft tissue pain
- Accelerate muscle recovery
- Improve blood circulation
- Improve muscle responsiveness
- Release lactic acid
- Stimulate muscle growth

Each Intens8 device includes five interchangeable attachment heads to provide targeted relaxation and pain relief, including;

- Ball Head – For larger muscle groups
- Conical Head – For pain point massage
- Spinal Head – For spinal massage
- Flat Head – For muscle massage relaxation
- Domed Metal Head – For temperature-controlled muscle relaxation
