

Experience Effective, Natural and Fast Pain Relief in Minutes!

-Huge expansion of the Universal TENS™ brand sees the introduction of 10 new wearable pain-relief garments -

1st October 2019 – Hull-based health and wellbeing company, Savantini Ltd, expand their Universal TENS™ brand with a huge array of wearable pain relief garments to provide relief and relaxation from head to toe.

The new range of Universal TENS™ products use the latest in healthcare technology and pain relief practice to allow the user to deliver targeted and effective pain relief at-home or on the go.

Universal TENS™ garments (ranging from £17.99 – 34.99) use transcutaneous electrical nerve stimulation (TENS) to give effective, long-lasting results. TENS works to reduce the pain signals being sent to the spinal cord and the brain, relieving pain and relaxing muscles. This technology also helps to stimulate the production of endorphins which act as the body's natural painkillers.

The affordable new range includes:

Electrode Elbow Support – Relieves tennis elbow, tendonitis and more

Electrode Back and Abdomen Belt – Relieves sciatica and menstrual cramps

Electrode Neck Wrap – Relieves muscle tension, aches and pain

Electrode Wrist Support – Relieves tendonitis and carpal tunnel syndrome

Electrode Shoulder Support – Relieves frozen shoulder, bursitis and more

Electrode Socks – Relieves foot sensitivity, pain, cramps, and numbness – ideal for those with diabetes

Universal TENS™ garments are specially-designed using a combination of silver fibre and breathable cotton to ensure effective, yet comfortable stimulation for pain relief. Silver fibre is used for its effective conductivity qualities, meaning each garment is able to provide pain relief to a wider area.

Each washable garment places the electrodes exactly where they are needed for quick and easy relief from aches and pains from head to toe. Simply connect the garment to the Universal TENS™ Machine and enjoy effortless relaxation at the push of a button. Replacing standard skin electrode pads with a Universal TENS™ garment can save you the cost of purchasing numerous electrode pads when their adhesiveness disappears.

Stephanie Taylor, Managing Director of Savantini Ltd, commented:

"We are proud to welcome the expansion of our Universal TENS™ brand. The new range hi-tech wearable garments are essential for overall health and maintenance of the body.

With the latest in pain relief technology, the affordable Universal TENS™ garments allow any user to experience relief in a matter of minutes – plus, each garment's effectiveness is guaranteed for 260 washes! Enjoy natural, effective and quick pain relief today with Universal TENS™."

The Universal TENS™ garments are available to purchase at www.stressnomore.co.uk
