

Rejuvenate Your Intimate Health in Just 10 Minutes

- Brand new intimate healthcare device, Vivify™, uses latest in healthcare technology to revitalise your pelvic health -

18 July 2019 - Hull-based Health and Wellbeing company, Savantini Ltd, launch their brand-new intimate healthcare product, Vivify™ Rejuvenating Pelvic Health Toner, to revitalise and maintain pelvic and gynaecological health.

The ultimate hi-tech vaginal rejuvenation device harnesses blue light LED therapy with red laser light therapy and vibration to revitalise intimate health.

Vivify™ Rejuvenating Pelvic Health Toner (RRP £349.99) is a natural, hormone-free, safe and effective method for ‘vivifying’ down below and is a great alternative to clinical treatments that can cost £1,000 per session. The Vivify™ Toner utilises the latest technology and scientific findings in one home-use machine to give amazing results.

The Vivify™ Rejuvenating Pelvic Health Toner can be used to:

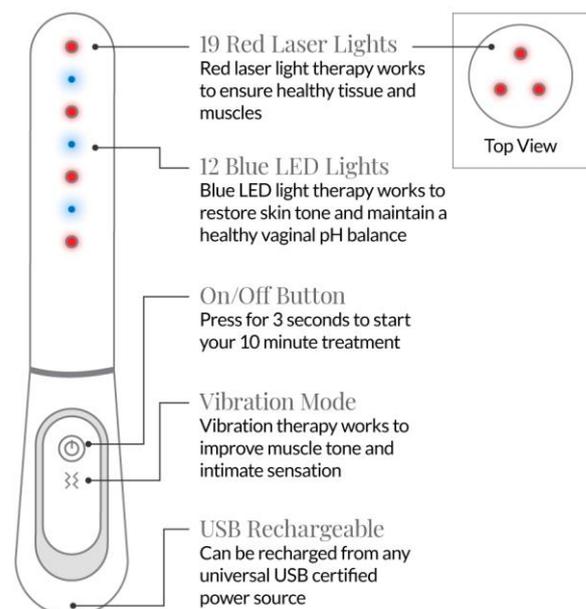

- Tone and tighten
- Rejuvenate vaginal tissue and improve natural moisture
- Improve sexual sensation
- Rejuvenate weak pelvic floor muscles
- Improve symptoms of urinary incontinence

Blue LED Light Therapy

The Vivify™ Toner’s 12 blue LED lights help to restore intimate skin tone and are antimicrobial, helping the user to maintain healthy vaginal pH balance. Ongoing clinical trials are also investigating whether light therapy can reduce odour and prevent Bacterial Vaginosis (BV).

Red Laser Light Therapy

19 red laser lights help to boost collagen and elastin; essential for healthy tissue and muscles. This form of light therapy also helps to improve circulation within the vaginal tissue – vital for increasing natural moisture and heightening intimate sensations. 81% of women who use multimodal vaginal toning experience an improvement in their sexual function.

Vibration Therapy

The function of vibration therapy can help to improve pelvic floor muscle tone and improve little leaks. 90% of women see a reduction in bladder leakage.

Stephanie Taylor, Managing Director of Savantini Ltd, commented:

“Savantini Ltd are proud to introduce the Vivify™ Rejuvenating Pelvic Health Toner to our health and wellbeing range. This revolutionary intimate healthcare device is essential for all women looking to keep their intimate health in top condition.

“With the latest technologies, the Vivify™ Toner allows women to improve and care for their pelvic and gynaecological health in the comfort of their own home.”
